

Seminar

INCREASING DAIRY FARM INCOME: BUSINESS MODELS FOR COOPERATIVES AND PRODUCER ORGANIZATIONS

In order to increase the income and operational efficiency of dairy farms, it is necessary to use the experience of foreign countries, operational models and apply similar state support measures.

The aim of the seminar is to discuss the operational problems of milk cooperatives and producer organisations (in particular the lack of funding) and the possibilities of overcoming them, as well as practical aspects of managing these organisations.

Topics of anticipated presentations and discussions:

1) Increasing the income of dairy farms: the experience of Polish producer organisations (J. Žukovskis, W. Styburski); 2) The advantages of limited cooperatives and the possibilities of their establishment (J. Ramanauskas); 3) The role and perspectives of the association "The path of cooperation" and the Chamber of Agriculture (ŽŪR) in increasing the spread of cooperation ideas (J. Kuzminskas, A. Žliobaitė).
