

Seminar

Global Vertical Cooperation (Cluster) Models and their Application Possibilities in Lithuania

The aim of the seminar is to present experience in the application of clusters, vertical cooperation and short food supply chains in foreign countries and to discuss measures to strengthen cooperation which would be useful and suitable for Lithuanian agricultural cooperatives and other interested persons and economic entities.

Presentations and discussions will focus on the following topics:

1) Experiences and models of the application of clusters (J. Zaleckienė); 2) Experience in the application of vertical cooperation (J. Ramanauskas) 3) Examples of vertical cooperation in Austria and Germany (G. Radzevičius); 4) Experience and models of the development of cooperative short food supply chains (V. Atkočiūnienė). 5) The discussion will be attended by the Chamber of Agriculture (A. Žliobaitė), Representatives of the Ministry of Agriculture (R. Pikšrys) and the association "Kooperacijos kelias" (J. Kuzminskas and V. Jundulas); 6) Value creation chain model (J. Zukovskis).
