

Seminar

COMPETENCES, KNOWLEDGE, AND INFORMATION FOR THE STRATEGIC DEVELOPMENT OF LITHUANIA'S BIOECONOMY: INSIGHTS FROM BOOST4BIOEAST

During this seminar, the research results of the BOOST4BIOEAST project will be presented. The aim of the research was to assess Lithuania's bioeconomy competences, knowledge, and information, as well as biomass potential. These findings have been evaluated and will be used in the preparation of Lithuania's Bioeconomy Action Plan.
